

## About the Wingate Centre

Welcome The Wingate Centre is a registered charity whose prime objective is to work with people of all ages with disabilities. It is also the policy of the Centre to promote integration in all of its work.

The work of the Centre is two - fold : Firstly, the Wingate Centre offers Educational Residential and Holiday facilities. In 2010 we have completed the redecoration and refurbishment of the ground floor of the centre to follow on from the 2008 refurbishment of the first floor. - this completes our programme of renewal to bring us up to the high standard we know you expect. Being based in a rural part of South Cheshire makes us an ideal holiday location with many interesting places to visit in the area. The excellent accommodation is specifically designed and equipped for disabled and special needs groups. Mainstream groups are also most welcome.

Accommodation comprises nine wheelchair accessible ground floor twin bedrooms with hand basins, with a full range of disabled bathrooms, shower rooms, toilets and sluice room. There is also a lounge/ TV room and games room. Further accommodation and facilities including two further lounges are available on the first floor which has 2 lifts for access, and can cater for up to thirty guests. Secondly, the Wingate Centre has a 'GymMark' accredited gymnasium one of the first 100 in the UK to reach this level of professionalism. It provides gymnastic and trampoline training for recreation and competition to all ages and levels of disability and ability. Our superb 7,000 square foot gymnasium offers classes for both mainstream and disabled people with a policy of integration whenever possible.

We can cater for all from the severely disabled who use gymnastics as therapy to those competing at National level. Gymnasium The Wingate Centre is unique in the outstanding facilities it offers. For more information on either gymnastics/trampolining or Holiday accommodation, please click on either of the above links. Thank you for your interest.
